

# ESTUATE

*Extreme Service*

## The Estuate Edge

Estuate is a global information technology (IT) services company based in the heart of Silicon Valley. Our founders have decades of deep software product experience at Oracle, particularly in Oracle-based applications development, integration and modernization, and unmatched Oracle E-Business Suite, Siebel, PeopleSoft and JD Edwards product knowledge. Our focus is two-fold:

- Providing expert **software product development** services to software companies
- Providing high-value **application implementation and management** services to enterprise clients.

We pride ourselves on being highly-responsive, nimble and efficient, and we are very honored to let our clients speak on our behalf.

Our **software product development** focus includes core product development and testing, business process integration and technology modernization. Our software company clients include Arena Solutions, Blue Coat, Cisco, Citrix, IBM, Oracle, Arbys, Luma, Radware, Salesforce.com, SRI International, DataFlux, Opnext, Openwave, TMaxx Gear and Triple Point Technology.

Our **enterprise application implementation** and management focus is on custom application development and the full Oracle E-Business Suite platform. Our enterprise application clients include Amway, McAfee, Bechtel, Merck, Pfizer, Stanford University, T-Mobile, Visa and Wells Fargo.

## Estuate Service Offerings

### Oracle and IBM Application Implementation and Management

Estuate provides end-to-end implementation and management of leading enterprise application products. We specialize in the full Oracle E-Business Suite and IBM's Optim products—Data Archiving, Data Masking, Test Data Management and Decommissioning.

Our hallmark Rapid Implementation Methodology (RIM), including automation tools, leverages industry best practices to streamline your Oracle implementation.

### Custom Application Development

Estuate approaches every project as a unique opportunity to provide our clients with world-class custom development services using the best technologies available.

We have in-house expertise in leading-edge development platforms, including Apple iPhone, IBM, Java, Microsoft .NET Framework, Oracle Applications Framework, WebEx Connect and web services. To ensure transparency, our seasoned engineers constantly stay in touch with clients using project dashboards and status reporting.

### Application Integration and Modernization

We have unmatched experience in enterprise application integration and modernization. We are expert at integrating business processes across leading applications from Oracle, Salesforce.com and others using Citrix; Oracle Application Information Architecture, Enterprise Manager and BPEL; Salesforce.com's Apex, WebEx Connect, IBM middleware products, DataFlux and leading integration tools.

We also have deep application modernization expertise, supporting a wide range of databases and operating systems, including Oracle, IBM DB2 and Informix, Microsoft SQL Server, MySQL, Windows, UNIX, and Linux. We specialize in migrating complex applications to IBM, Oracle, open source and Microsoft platforms.
