# Estuate: Complete Information Lifecycle Management Services for Oracle Applications

Enterprise applications and databases do not just help running the business - they are your business. Every year, they grow in size and complexity, making them harder to manage. Uncontrolled data growth threatens application performance and service level agreements, increases maintenance costs, and exposes enterprises to legal liability for data privacy and security. Information Lifecycle Management (ILM) focuses on the governance of your enterprise data from creation through to the end of its useful life.

Suite, Siebel, PeopleSoft, JD Edwards, other Oracle industry application packages, and custom applications on Oracle databases. And, we offer these services in both on-premise and managed service models.
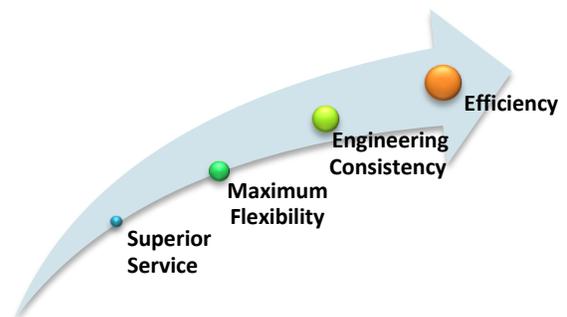

IBM® Optim™ Solutions are enterprise data management products that address critical issues of data growth management, data privacy compliance, test data management, e-discovery, and application upgrades, migrations and retirements.

Estuate is IBM's go-to partner for IBM Optim Solutions implementation across the entire product family. We build the Oracle-aware versions of Optim for IBM. And, we have successfully implemented IBM Optim Solutions for over 150 clients worldwide across a wide range of industries, sizes and platforms

Estuate is the world's leading specialist in ILM for Oracle-based applications, both package and custom. We use IBM Optim Solutions in our implementation of ILM for **Oracle E-Business**

Estuate's Implementation Services Options for IBM® Optim

We offer a complete range of implementation approaches for IBM Optim

- Traditional **on-premise** configurations where we enable our clients' IT teams to implement and manage Optim in-house
- **Outsourced implementation** with Optim on-premise
- Full **managed hosting services** where Estuate provides the hardware, software and services as a bundled package with subscription pricing

Efficiency
