

## Estuate Service Offerings

### Oracle and IBM Application Implementation and Management

Estuate provides end-to-end implementation and management of leading enterprise application products. We specialize in the full [Oracle E-Business Suite](#) (EBS) and [IBM's Optim Solutions](#): Data Growth, Data Masking, Test Data Management, and Application Retirement. Our hallmark Rapid Implementation Methodology (RIM), including automation tools, leverages industry best practices to streamline your Oracle EBS implementation.

### Custom Application Development

Estuate approaches every application development project as a unique opportunity to provide our clients with world-class [custom development services](#) using the best technologies available. We have in-house expertise in leading-edge development platforms, including Apple iPhone, IBM, Java, Microsoft .NET Framework, Oracle Applications Framework, WebEx Connect and web services. To ensure transparency, our seasoned engineers constantly stay in touch with clients using project dashboards and status reporting.

### Application Integration and Modernization

Estuate has unmatched experience in [enterprise application integration and modernization](#). We are expert at integrating business processes across leading applications from Oracle, Salesforce.com and others using Citrix, Oracle Application Information Architecture, Enterprise Manager and BPEL, Salesforce.com's Apex, WebEx Connect, IBM middleware products, DataFlux and leading integration tools.

We also have deep application modernization expertise, supporting a wide range of databases and operating systems, including Oracle, IBM DB2 and Informix, Microsoft SQL Server, Sybase, MySQL, Windows, UNIX, and Linux. We specialize in migrating complex applications to IBM DB2 from a variety of platforms.

### Big Data

Estuate has core competence and experience in Big Data analytics. We understand that there are numerous options and platforms available for implementing a [Big Data solution](#). We specialize in helping companies understand the power of Big Data tools, and the impact they can have on their organizations. We use our in-house expertise to process and analyze data to optimize business strategy. We have experience with Big Data application development—from installing Hadoop on our internal servers, to identifying from where to get the data, and what to search for, to making the technology work and managing the solution over time. We focus on areas where Big Data tools can make maximum impact with minimum investment.

### Why Estuate?

Estuate is a global technology services company, headquartered in Sunnyvale, California, with additional offices in Canada, India and the UK. Estuate's key service offerings include [Oracle Services](#) and [IBM technology implementation, custom application and product engineering](#), as well as [business intelligence](#), [Big Data](#) and [software management](#). Estuate's dedicated teams help clients throughout the technology lifecycle by aiding during the planning phase as well as the post-deployment phase.

Estuate focuses on building deep relationships with enterprise software companies through product engineering, and providing implementation and custom application development services to customers. We help our clients

strategize to get the most from their technology reduce total cost of ownership and streamline daily software management tasks so that their internal teams can focus on critical business objectives. This innovative strategy creates win-win relationships with software partners and clients across a wide range of industries.
