

Estuate Launches Operations in the United Kingdom

Sunnyvale, CA - 4/20/2009—Estuate, Inc. establishes European operations with a wholly-owned subsidiary in the United Kingdom

Estuate today announced the creation of its European operations headquartered in the United Kingdom, with an office in Tamworth. This milestone enables the company to better serve its new European clients—the U.K. Ministry of Defense and Co-Operative Financial Services in the U.K., as well as Isbank in Turkey, and to pursue new clients through its partnerships with IBM, Oracle and other software companies.

“Our U.K. launch marks a major milestone for Estuate,” said Marc Hebert, Estuate’s Chief Operating Officer. “Together with our new East Coast presence based in New Jersey, we now offer our clients much broader coverage, both nationally and internationally, and a stronger ability to go to market with our strategic partners.”

About Estuate

Founded in 2004, Estuate is a global information technology (IT) services company based in the heart of Silicon Valley. With deep Oracle applications product development roots, it provides world-class software product development services to software companies, and high-value application implementation and management services to enterprise clients.
