ESTUATE

Systech achieves 95% automation of regression test cases

Systech is a global technology leader in product safety, and consumer and brand protection.   Systech pioneered serialization and is defining the future of authentication. For 30 years, their innovation has led best practices for key brands across the pharmaceutical, life science, food and beverage, and consumer packaged goods industries.

1. Business Challenge

Systech's testing teams were facing some major issues that were hindering their performance.

Lack of automation testing and associated frameworks

Lack of people have knowledge on Automation

Lack of QA processes

No Customized Test Execution report

2. Estuate Solution

Estuate's test automation solution was the right match for Systech's complex business needs.

- Built a **Test Automation Framework** using multiple technologies

- Enabled **seamless automation** of regression test cases through Jenkins

- Introduced best in class **QA processes using JIRA**

Systech Case Study

3. Business Impact

Estuate's application retirement solution helped Baxter modernize their systems and gain operational efficiencies. The benefits included:

**95% automation** of web application test cases

80% automation of test cases on both iOS and Android phones

Parallel execution of test scripts on multiple devices leading to **50% reduction in execution time**

40% cost savings due to usage of non-commercial testing tools

Testimonial

"

We're more than impressed with Estuate. They helped us move to a completely automated testing platform, reducing our manual efforts and improving our performance phenomenally.

- Dave Henderson, VP -Engineering, Systech
