

Amgen Revs Up Asset Management with Estuate

A biotechnology pioneer since 1980, Amgen focuses on leveraging its biologics manufacturing expertise to strive for solutions that improve people's health and lifestyle. Amgen has grown to be one of the world's leading independent biotechnology companies, reaching millions of patients around the world.

1. Business Challenge

Amgen was looking for an efficient solution to control explosive data growth and increase their application performance. They needed to:

-  Monitor and harness enterprise data growth while improving operational efficiencies
-  Create strong backups to manage the increasing data collected by application databases and service requests
-  Reduce the increased system and storage costs and improve application performance

2. Estate Solution

Estuate helped Amgen monitor data growth and implemented a proven enterprise data management strategy. The solution:

- **Ensured easy storage,** management and retention of application data effectively with IBM Optim Data Growth solution
- **Offered reliable data backup** with universal access to current and archived data from an intuitive front-end tool
- **Reduced storage costs** by enabling a tiered storage strategy and improved operational productivity with faster and easier processing and archival of data

3. Business Impact

Estuate's solution was designed specifically for the Client's Maximo environment, and provided following key benefits. The benefits included:

Improvement in Maximo performance including speed in operations and effective big data management

Reduced costs of storage and IT resources and reduced time for back up and upgrades resulting in maximum operational productivity

Easy accessibility to historical and current business data for audit, analysis and regulatory purposes

Testimonial
