

IBM TRIRIGA to IBM Maximo Real Estate & Facilities Migration Service

Migrate from TRIRIGA to MREF
in 3-6 months with Estuate's automation
driven migration services for accelerated

EXECUTIVE SUMMARY

Estuate empowers organizations to modernize Real Estate and Facilities Management **through a service offering** to migrate from their **legacy** IBM TRIRIGA to IBM MREF—part of IBM's next-generation Maximo Application Suite.

As IBM TRIRIGA enters its final 2 years of support, it warrants customers to upgrade and migrate to MREF (part of Maximo Application Suite).

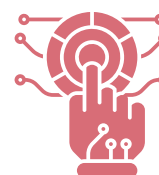

With Estuate's proven migration methodology, clients achieve faster migration objectives, reduced operational costs and improved service experiences. This transformation to IBM MREF helps enterprises unlock greater efficiency, agility, and insight across IT and enterprise operations.

From readiness assessment to go-live optimization, Estuate ensures a seamless, low-risk, cost effective migration journey that positions your IT environment for the future of AI-driven, cloud-based service management.

ESTUATE VALUE PROPOSITION

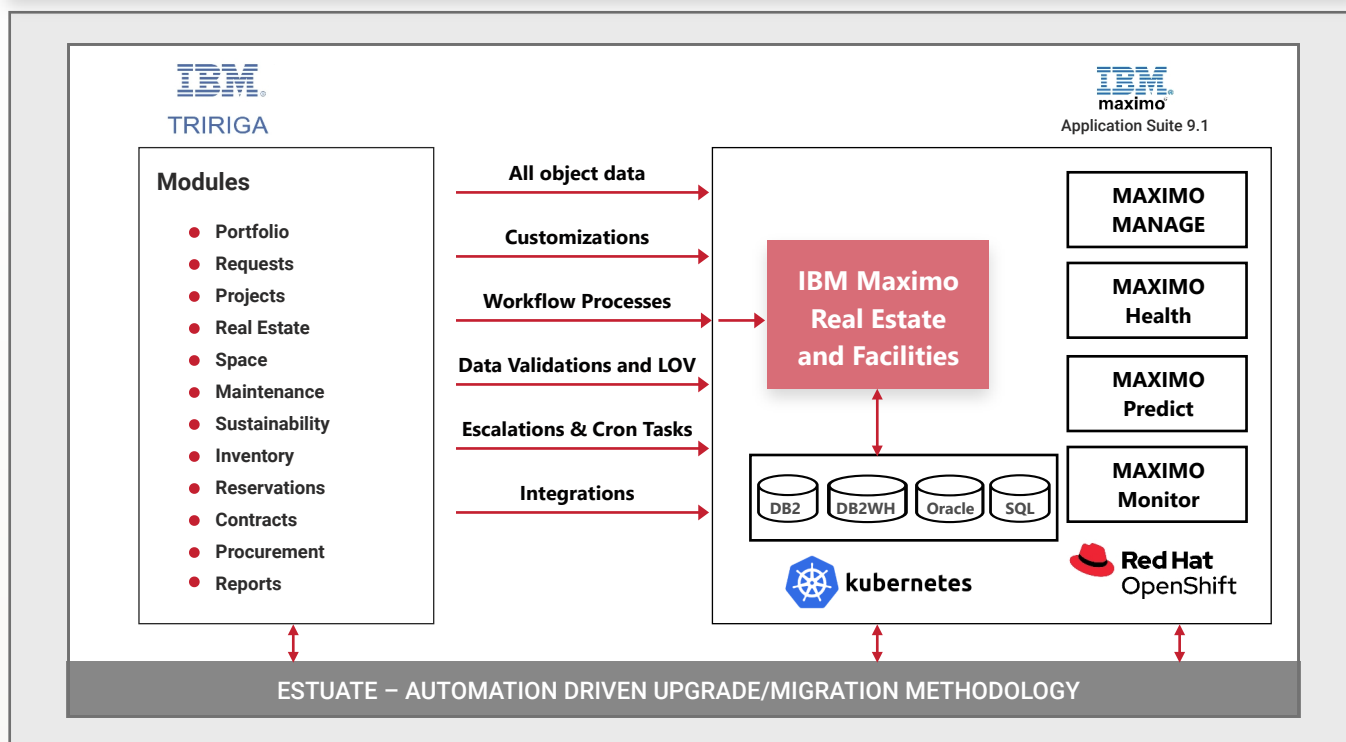

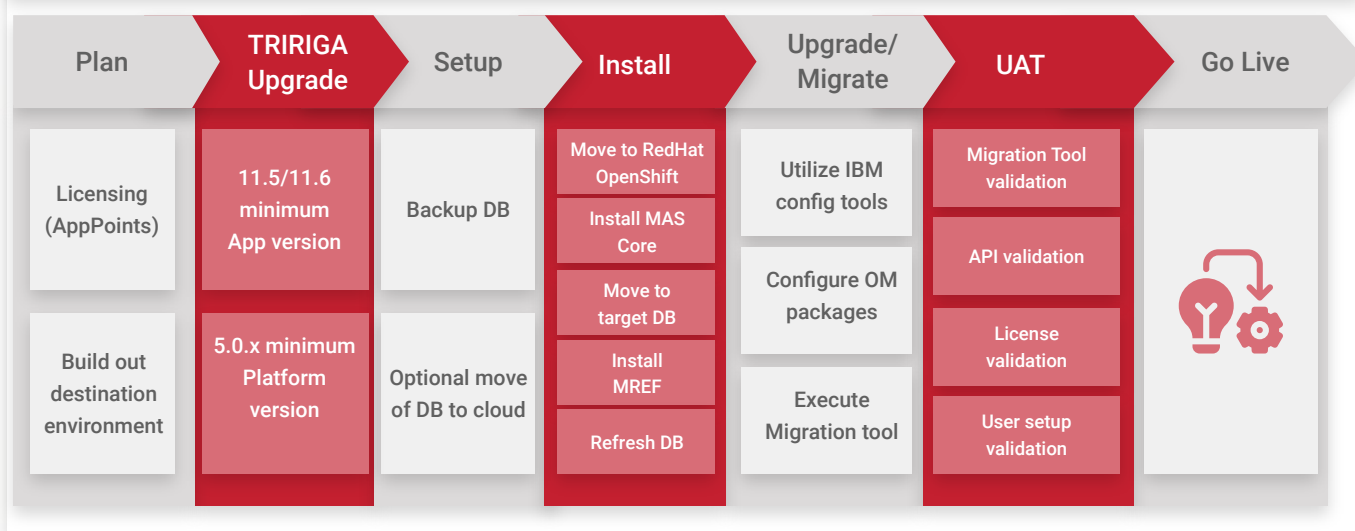

- Automation and accelerators driven migration just in 3-6 months (for MREF ready installs)
- Automated Discovery, Assessment, Upgrade/migration and Testing processes.
- Up to 25-40% reduced migration timeline than traditional.
- Up to 40-50% reduced cost of migration than traditional.
- Efficient project delivery with seamless user adoption to MREF
- Delivery excellence led by experienced project team for on time and quality delivery.

ESTUATE

ESTUATE MIGRATION METHODOLOGY
