

View Inc. achieves IT Compliance with Estuate MS GRC Solution

View Inc. is a technology company specializing in smart windows and dynamic glass systems designed to improve building energy efficiency and occupant well-being. Their solutions leverage cutting-edge technology to enhance natural light management and reduce energy consumption in buildings, contributing to sustainable and intelligent building designs.

1. Business Challenge

The client sought a comprehensive solution for modern-day GRC practices to enhance their processes, addressing the following challenges:

Manual, spreadsheet-based management of GRC objects (risks, controls, assets).

Manual, spreadsheet-based management of issues and remediation.

Extended time required for control testing and capturing results.

Unstructured compliance reporting.

2. Estuate Solution

**To address the client's GRC challenges,
Estuate implemented a comprehensive approach:**

- Implemented MetricStream's IT Compliance solution with relevant organizational structure.
- Compiled and uploaded GRC objects such as risks, controls, assets, asset classes, standards, and processes.
- Supported business user testing and acceptance.
- Provided post go-live system stabilization support.
- Delivered post go-live enhancement and report generation services using a Tableau interface for design.

3. Business Impact

The Estuate solution brought about several key benefits:

Structured and streamlined IT compliance

environment with foundational GRC components and processes.

Significant improvement in self-assessments, surveys, and issue management processes.

50% reduction in time taken for control testing.

Better and **structured reporting** using the Tableau interface.

Increased user productivity.
